SIMEN MOUNTAINS NATIONAL PARK

Massive erosion over the years on the Ethiopian plateau has created one of the most spectacular landscapes in the world, with jagged mountain peaks, deep valleys and sharp precipices dropping some 1,500 m. The park is home to some extremely rare animals such as the Gelada baboon, the Simien fox and the Walia ibex, a goat found nowhere else in the world.

BALE MOUNTAINS NATIONAL PARK

Bale Mountains National Park is the largest area of Afro-Alpine habitat in the whole of the continent. It gives the visitor opportunities for unsurpassed mountain walking, horse trekking, scenic driving and the chances to view many of Ethiopia's endemic mammals, in particular the Mountain Nyala and Semien Fox, and birds, such as the Thick-billed Raven, Wattled Ibis, Blue-winged Goose, and Rouget's Rail.
